HANDSET REGISTRATION

Note: Handset and base station are pre-registered.

Up to four handsets can be registered to a single base station. In the case of re-registration, the PIN code is **0000**.

Registering a handset

On Base: press and hold /HANDSET LOCATOR on the base unit to hear a beep to enter the registration mode.

At the same time **on Handset:** Press **MENU/OK** () select REGISTRATION. Press **MENU/OK** () select BASE(1-4), Press **MENU/OK** () enter 4 digits PIN for the base PIN.

After a short delay, if the registration is successful, there will be a confirmation beep, and the handset display will go back to idle mode with the new handset number shown. The base display will also go back to idle mode.

De-Registration

On Handset: Press **MENU/OK** , select **▼▲BS SETTINGS**, press **MENU/OK** , select **▼▲DELETE HS**, press **MENU/OK** , enter PIN **0000**, press **MENU/OK** , select **▼▲**one of the handsets that you want to de-register, press **MENU/ OK**  to confirm.

INTERCOM

Internal Call

Press **C/MUTE** , Enter the desired handset number on keypad.
If you receive a call on the base in speaker mode, the call is automatically transferred on the handset if the handset is removed from the charger.

Call All Handsets

Press **C/MUTE** , Enter "9" on keypad.

Transfer an External Call

Press **MENU/OK** , select **▼▲ INTERCOM**, Press **MENU/OK** , Enter the desired handset number on keypad.
After connection end the call on handset.

Conference Call

Press **MENU/OK** , select **▼▲ INTERCOM**, Press **MENU/OK** , Enter the desired handset number on keypad.
After connection press and hold  until CONFERENCE is shown.
NOTE: Any party hangs up during a conference call will leave the other party still connected with the external call.

PHONEBOOK

Your phone can store up to 50 private phonebook in the cordless handset and the telephone base with names and numbers. Each phonebook entry can have a maximum of 20 digits for the phone number and 12 characters for the name. You can also select different ring tones for your phonebook entries. Phonebook entries are stored alphabetically by name.

To Add new entry

In idle mode :

Press **MENU/OK** , select **▼▲PHONEBOOK** to access the phonebook list (or empty),
Press **MENU/OK** , to select **ADD**.
Press **MENU/OK** , to select **NAME** ,enter the name.
Press **MENU/OK** , to select **NUMBER**, enter number.
Press **MENU/OK** , and **▼▲** to select the desired ringtone for your phonebook entry.
Press **MENU/OK** , to save.

DIRECT MEM

Your AMPLIDECT™295 base can also paired as additional handsets with some specific handset/device like our **PhotoDECT295** or **SOS-PRO 295** which need direct memory numbers programed in the base, and these numbers (4 maxi) have to be added through the regular handset.

On Handset : Press **MENU/OK** , select **▼▲DIRECT MEM**,
Press **MENU/OK** , select **▼▲M1-M2-M3-M4**,

Press **MENU/OK** , enter number then OK.

Picture big button Memories

You can store up to 10 picture memories.
In idle mode: Press , enter the phone number with the picture keys(eg. M0 for the digit 0), Press , and press the picture memory button what you have chosen.
NOTE: To use a picture big button memory in idle mode, press and hold the picture until the LED turns on, on the base. If you want to pass the number from the base to the handset, lift the handset off the base to take the call.

ANSWERING MACHINE

Your telephone base includes a telephone answering machine that records unanswered calls when it is on. The answering machine can store up to 59 messages within the maximum recording time of approximately 15 minutes. As well as recording incoming messages, you can record memos for other users of your phone.

Switching Answering Machine On/Off

Using the handset:

1. Press **LEFT SOFTKEY** , and **▼/▲** to select **ANS. MACHINE**.
2. Press **LEFT SOFTKEY** , and **▼/▲** to select **TAM ON/OFF**.
3. Press **LEFT SOFTKEY** , and **▼/▲** to select **ON** or **OFF**.
4. Press **LEFT SOFTKEY** , to confirm.

Play Messages on TAM

If you have new messages, the display will show e.g. 02/05 MSGS, which means you have 2 new message out of total 5 messages. New messages are played first, and then are saved as old messages, until they are deleted. Old messages are played again after all new messages are played completely.

Using the handset:

1. Press **LEFT SOFTKEY** , and **▼/▲** to select **ANS. MACHINE**.
2. Press **LEFT SOFTKEY** , to show **MSG PLAYBACK**.
3. Press **LEFT SOFTKEY** , again to start message playback and the screen displays the date of the message received.
4. During message playback, press **▼/▲** to adjust the message playback volume respectively.
NOTE: After new message is played, the new message will be saved as an old message automatically unless it is deleted.
5. Press **LEFT SOFTKEY** , and **▼/▲** to select **STOP**, **FORWARD**, **PREVIOUS** or **DELETE** to perform the following functions during message playback.
 - **STOP:** Stop the current message playback and return to the ANS. MACHINE menu.
 - **FORWARD:** Skip to play the next message. The date information of the next message will display if there is next message.
 - **PREVIOUS:** Skip to repeat playing the current message from the beginning. The date information of the current message will display.
 - **DELETE:** Delete the current message and the next message will be played.
6. Press **LEFT SOFTKEY** , to confirm the setting.

Set the Answer Delay

You can set the number of rings before the answering machine answers and starts playing your OGM. You can set the answering machine to answer after two to eight rings or TIME SAVER.

The TIME SAVER function answers calls after 6 ring signals, until the first new message has been registered - then the answering machine switches to answering after approximately 2 signals. This is useful when using remote access; if you call up the answering machine and there is no reply after four rings it means there are no messages recorded and you can hang up before you are charged for the call.

Using the handset:

- 1.Press **LEFT SOFTKEY** , and **▼/▲** to select **ANS. MACHINE**.
- 2.Press **LEFT SOFTKEY** , and **▼/▲** to select **TAM SETTINGS**.
- 3.Press **LEFT SOFTKEY** , and **▼/▲** to select **ANSWER DELAY** (Available options: **2 RINGS**, **4 RINGS**, **6 RINGS**, **8 RINGS** or **TIME SAVER**).
- 4.Press **LEFT SOFTKEY** , and **▼/▲** to select your desired answer delay.
- 5.Press **LEFT SOFTKEY** , to confirm.

REMOTE OPERATIONS

If you are away from your home, you can call your answering machine to switch on or off the answering machine and listen to your messages remotely using another tone-dialing phone.

1. Place a call from a tone-dialing phone.
2. When the answering machine answers the call and starts playing OGM, press .
3. Enter the 4-digit Remote Access PIN (default PIN is **0000**).
4. Press the following keys to carry out your desired function.

key	Functions	
	While message is not playing	While message is playing
2		Delete the current message playback
4		Repeat playing the current message from the beginning. Press twice to skip backward to the previous message.
5	Play the message	Pause the current message playback
6		Skip forward to play the next message
7	Turn on the answering machine	
9	Turn off the answering machine	
*	Enter the 4-digit remote access PIN	

NOTE: When your answering machine memory is full and the answer mode is in ANS & RECORD, the answer mode will change to ANSWER ONLY automatically.
It will change to ANS & RECORD mode automatically after some messages have been deleted.
You cannot delete new messages before they have been listened to.
