

PRESSURE CARE PRODUCT RANGE

*Products designed for use in the prevention
and management of pressure related injuries*

About TalarMade

TalarMade Ltd are based in the UK and employ a large number of healthcare professionals that form part of our management and clinical team. We pride ourselves on our ability to transfer our medical expertise and market knowledge into high quality products, which ultimately leads to improvements in patient care.

Following successful consultation with a wide range of UK leaders in the medical field of pressure redistribution, diabetic foot care, acute and community healthcare providers and tissue viability specialists we have developed a range of high quality devices that offer the clinician a number of solutions that may be incorporated into a pressure damage prevention strategy.

Our Pressure Care range includes:

- Safeguard Heel Boot Page 3
- Safeguard Utility Pad Page 3
- Heelpro Page 4
- Heelpro Advance Page 4
- Footsafe Prevention Boot Page 5
- HeelSafe Pressure Redistribution Pad Page 6
- SoleSafe Bed End Pressure Redistribution Pad Page 6
- FootShield II Shoe Page 7
- FootShield II Boot Page 7
- FootShield II Wedge Shoe Page 8
- FootShield Hex Insole Page 8
- Ambulatory Pressure Relief Boot Page 9
- Pressure Relief AFO Page 9

Our helpful product selection pathways are on pages 10-11 if you need assistance selecting any products within our range.

To order our products or for more information, you may contact us at the details below.
